

About sweetspots

sweetspots helps you find the best restaurants, cafés and bars in town using short audio messages. We are a Vienna-based team of everyday-life adventurers with a simple mission: make recommendations more human by enabling people to share authentic, insightful, and entertaining audio messages with each other.

To strengthen our team, we are now looking for:

Software Developer with a focus on audio recommendations (m/f/x)

Where your expertise is needed

- As a Software Developer you will be closely working with our Product and Design colleagues to drive state-of-the-art audio recommendations to scale.
- Constantly improve our architecture to be more flexible and scalable. Enabling colleagues to contribute to our codebase (Inner Source).
- Strong data modeling, data manipulation, and architectural expertise.
- Write clean, composable, and testable code.

What we are looking for

- Knowledge and experience working with some of the following: Elixir, Dart, Java, Kotlin, Swift, and Javascript.
- Comfortable to work in a small team/startup environment where pragmatism and drive to ship is crucial.
- Accomplished plenty and made enough mistakes to consider yourself experienced.

What we offer

- Full-time position with a gross salary of €3,000/month (more depending on experience and qualification) + equity deal (negotiable).
- Office space with all you need in the first district of Vienna.
- Extensive onboarding, personal branding support, and personal development opportunities.

Did we catch your interest?

Then send us your application with CV and experience by e-mail to jobs@sweetspots.io. Feel free to call us at +43 664 3859538 if you have any questions! We look forward to receiving your application.

We celebrate diversity and are committed to building teams that represent a variety of backgrounds, perspectives, and skills. All employment decisions are based on qualifications, merit, and business need.
